

DocumentsCorePack

the #1 Document Automation Solution for Microsoft Dynamics 365, PowerApps & Flow

Document Generation & Processing

Dialog: Generate and process documents in 3 steps

1. Select template
2. Define how to process document
3. Preview: Review and Edit

The **dialog can be customized** supporting:

- **One-Click-Actions:** Preconfigure your document processes to just one click
- **Workbooks/Document packages:** Define complex documents consisting of several individual elements

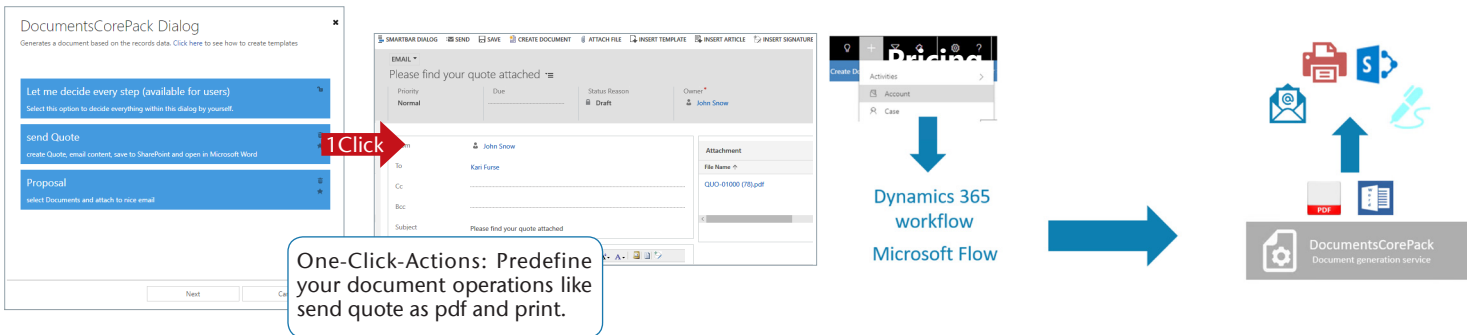

PowerApps: Using Microsoft Flow documents can be generated from your custom applications (Canvas Apps, Portals ...)

Document Automation

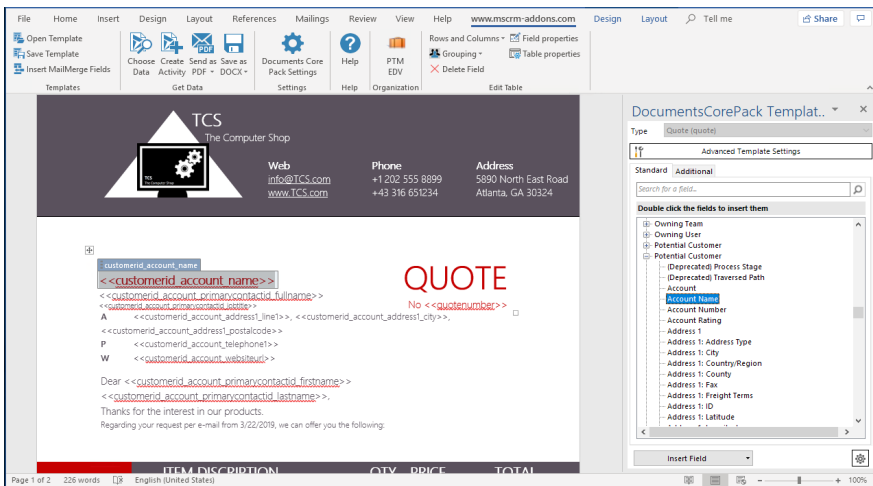

- Dynamics 365 processes integration: Automate your document processes via Dynamics 365 workflows or Microsoft Flow
- Reducing your user's workload and standardizing your internal and external documents
- Scheduled reports (daily, weekly, monthly)

Template Design

- **Microsoft Word-based:** No design/feature limitations
- **Dynamics 365 connector:** Map any fields from Dynamics 365 or CDS (Common Data Service)
- **Special features:** Embedding of pictures, sub-documents, e-Signature tags, HTML, QR-Codes ...

One-Click-Actions: Predefine your document operations like send quote as pdf and print.
